## About Obduction Kickstarter Backer Rewards

Lloyd Woodall - 2017-12-14 - in [Kickstarter Backer Questions](#)

If you were a supporter of the Obduction Kickstarter, thank you again for helping us make the game. We could not have done it without your support.

All “physical” backer reward items have shipped.

If you still have not received your physical reward items, send an email to [backers@cyan.com](mailto:backers@cyan.com) immediately.

All Obduction Backer game codes have been distributed at this time. If you believe you did not receive a

code which was due to you, there's a good chance you actually have received it but didn't realize it.

Please check your Inbox, Junk mail, Spam, and Trash folders under the email address you Backed Obduction with for an email from Humble Bundle delivered on (or just after) August 24th, 2016. That email is the one sent to Backers which included the codes to redeem a Steam or GOG key for Obduction.

If you were an Obduction Kickstarter Backer and you cannot find the Humble Bundle email from August 24th, 2016, please enter the email address you used to back Obduction at this site to request that Humble Bundle re-send your code: <https://www.humblebundle.com/resender>

As a Backer, to find your downloaded "digital" backer items located on PC/Mac, please go to Obduction in your Steam game library, right click on Obduction and select 'properties'. Click on the 'Local Files' tab and select 'Browse Local Files'. Your items will be found in that folder.
