## How do I drop a page?

Vicki Almond - 2019-11-06 - in [Gameplay Questions](#)

How do I drop a page?

You can drop a page using the *Drop Page* button in the *Myst Options* panel. If you decide you would like to drop a page, you can tap this button and the page will be returned to where you originally found it.

*Note: You can only carry one page at a time, so picking up a page will cause any page you are carrying to be returned to where it was originally found.*
