Is it possible to use the screen capture feature of my iPhone or iPod touch while in the game?

Vicki Almond - 2019-11-06 - in Gameplay Questions

Is it possible to use the screen capture feature of my iPhone or iPod touch while in the game?

Yes it is. To take a screen snapshot, just hold down the *Home* button and then push the *Sleep/Wake* button. After the flash, your screen snapshot can be found in your photo album.
