Myst - 1.1.3

Welcome to version 1.1.3 (iPhone OS 3.0 ready)

We've spent quite a bit of time optimizing, and we've reduced the size by almost 30%! We've polished up lots of graphics, sounds and interface issues. And of course we've fixed a few bugs that bugged a few people. So enjoy the improvements in this updated version, while we get right to work on a couple of surprises you'll love in the next one.

Improvements:

- + Reduced app size by almost 30%! (534 MB download size)
- + In-game browser added for much faster access to help/hints and back to game
- + Simplified book reading in Library

Bug Fixes:

- + Maze Runner bug fixed
- + Improved recovery from sleep/call/bookmark in unexpected places
- + Option Panel / web browser interface adjustments
- + Numerous sound and music fixes
- + Numerous art asset and graphic corrections
- + Numerous hot-spot/interface adjustments
- + Numerous other bug fixes in all Ages
- + iPhone OS 3.0 compatibility improvements
