## Welcome to Crowbox!

Lloyd W - 2020-10-13 - in [Crowbox for iOS](#)

**Welcome to Crowbox! Here's a rundown of some terms you should know as you use the app each day.**

### ***What is "Crowbox?"***

***Crowbox* is a new way to share pictures between devices. It's meant for when you're together with friends or family, want to show them a picture, but don't want to get too close. It's like a projector and a screen — but the projector is one device, and the screens are other devices nearby.**

### ***Why "Crow"box?***

**"Crow" is a term for bragging about something - like your shepherd's pie, your chihuahua, or your new nephew.**

**Crowbox lets you Crow (show) your pictures to one or more people who can View them.**

***OK, so I'm a "Crower?"***

**Yes! And as the "Crower," You control the show - switching to the next picture when you're ready, zooming into a particular area, or spotlighting something interesting that you want to Crow about! The Viewer just enjoys the show.**
