Which of Cyan's games are 64-bit compliant for the release of macOS Catalina?

Vicki Almond - 2019-11-06 - in General Information

Cyan's games that are available for macOS that are 64-bit compliant:

Obduction

realMyst: Masterpiece Edition

Myst III: Exile

Riven: The Sequel to Myst

Myst: Masterpiece Edition

Cyan's games that are available for macOS that are not currently 64-bit compliant:

URU: Complete Chronicles

Myst V: End of Ages

Myst IV: Revelation

Note: *Cyan is working with Codeweavers, the developers who helped us update the games in 2018, to make them compliant with Apple's latest update requirements. We don't have an ETA yet on when this will be complete.*
